

Project discussions on Wednesday

Groups based on your interest. Proposed groups:

- RNA-seq and epigenetics (Agata and Mihaela)
- Variant calling including somatic variants (Malin and Adam)
- Experimental setup (Olga)

Please plan questions for the discussion:

- technology-related
- analysis-related
- if there is something your would like to discuss 1:1 with a teacher only
- ?

Time: 14:00 -17:00 on Wednesday

Place: Odén, Fick and Dalton

Groups will be decided during Monday/Tuesday (let me know which group you want to be in)
